

Imagine

(Imagine - The Beatles)

Verse 1

Imagine there's no coal plants
It's easy if you try
No fracking below us
Or pollution in our sky
Imagine all the people
Breathing cleaner air

Verse 2

Imagine there's no pipelines
It isn't hard to do
No spills in our oceans
And no Nordstream two
Imagine all the people
Living fossil free

Chorus

*You may say that we're dreamers
But we're not the only ones
We hope to build a better future
Fueled by uranium or thorium*

Verse 3

Imagine a world without poverty
I wonder if you can
No need for cold or darkness
A high energy plan
Imagine all the people
Sharing all the world

Chorus

*You may say that we're dreamers
But we're not the only ones
We hope to build a bright future
Fueled by uranium & thorium*
